

CITY COUNCIL**The City of Orange Township, New Jersey**DATE August 2, 2023NUMBER 306-2023**TITLE:**

A RESOLUTION DECLARING AN EMERGENCY AND RATIFYING A CONTRACT BETWEEN THE CITY OF ORANGE TOWNSHIP AND NORTHEAST COMMUNICATIONS 244 EAST UNION TURNPIKE, WHARTON, N.J. 07885 FOR EMERGENCY 911 COMMUNICATIONS SYSTEM EQUIPMENT IN THE AMOUNT NOT TO EXCEED \$765,000.00.

WHEREAS, N.J.S.A 40A:11-6 Emergency Contract, any contract may be negotiated or awarded for a contracting unit without public advertising for bids and bidding therefore notwithstanding that the contract price will exceed the bid threshold, when an emergency affecting public health, safety or welfare require the immediate delivery of goods or performances of services; and

WHEREAS, the City of Orange Township received notification from the Orange Police Department ("OPD") that the 9-1-1 system has not been functioning and communication personnel are unable to answer 9-1-1 calls at the communication center; and

WHEREAS, emergency calls from the City have been routed to our partner the City of Bloomfield which requires a communication operator or police officer (from the OPD) to man Bloomfield's communication center 24/7; and

WHEREAS, the OPD's IT personnel has advised that the system is beyond repair and the company that once serviced the system is no longer in existence and;

WHEREAS, the City of Orange Township was required to address this public safety emergency immediately. A non-functioning 9-1-1 system can cause a delayed response to emergency or public crisis, limit the OPD access to crucial information, increase risk for police personnel and can create fear and doubt in the minds of residents as it relates to the OPD's ability to serve and protect and;

WHEREAS, the Qualified Purchasing Agent is satisfied that an emergency exists and recommends that a contract be awarded to Northeast Communications. Northeast Communications is the authorized dealer for 'Zetron'. Under New Jersey State Contract #83924 Zetron is a supplier of communication consoles, equipment rack and operator furniture; and

WHEREAS, a Certification of Availability of Funds is not required given the emergency appropriation; and

NOW, THEREFORE, BE IT RESOLVED THAT, the Municipal Council of the City of Orange Township be and hereby ratifies and approves the award of a contract to Northeast Communications, 244 East Union Turnpike, Wharton, N.J. 07885, for 9-1-1 communication equipment and services for the City of Orange Township under the emergency provisions established by N.J.S.A. 40A:11-6 in the total amount not to exceed \$765,000.00

BE IT FURTHER RESOLVED, that this contract is awarded without competitive bidding as an "Emergency Contract" in accordance with N.J.S.A. 40A:11-6 of the Local Public Contracts Law because an emergency affecting the public health, safety or welfare requires the immediate delivery of goods or the performance of services.

MAYOR

BE IT FURTHER RESOLVED, that notice of this action shall be printed in a City of Orange Township designated publication as required by law within ten (10) days of its passage.

Adopted: August 2, 2023

Joyce L. Lanier
City Clerk

Tency A. Eason
Council President

City of Orange Township Orange Police Department

29 Park Street Orange, New Jersey 07050
(973) 266-4111 - (973) 952-6300

Todd Warren
Police Director

Vincent L. Vitiello
Chief of Police

Sir, The Orange Police Departments 9-1-1 system has not been functioning. Our communication personnel are not able to answer any 9-1-1 calls from our communications center and as you are aware our emergency calls are being routed to our partner city Bloomfield. This requires a communication operator or police officer to man Bloomfield's communication center 24/7. As if this wasn't enough, our ability to record all 9-1-1 calls is not functioning. The PD's IT personnel has advised me and Director Warren that the system is beyond repair and the company that has once serviced this system is no longer in existence. All Police Departments are mandated to have these systems functioning at all times, and if not it leaves the city liable for any negative circumstances which may affect the community . Below you will see the effects of a non-functioning 9-1-1 system:

1. **Delayed emergency response:** The 911 system is the primary means for community members to report emergencies and seek immediate assistance from the police. If the system is not functioning, people will be unable to connect with the authorities promptly. This delay in emergency response can result in critical situations worsening, such as ongoing crimes, medical emergencies, or threats to public safety.
2. **Inability to receive crucial information:** The 911 system serves as a vital communication channel between the community and the police. It allows individuals to provide crucial information about crimes, suspicious activities, or potential threats. Without a functional system, the police miss out on these valuable tips and leads, hindering their ability to prevent or investigate criminal activities effectively.
3. **Compromised public safety:** A malfunctioning 911 system diminishes public safety by reducing the speed and efficiency of emergency responses. The inability to quickly report and address emergencies can leave community members feeling unsafe and vulnerable. It erodes public trust in the police's ability to protect and serve, which can have long-lasting consequences on community-police relations.
4. **Increased risks for police personnel:** When the 911 system fails, police personnel face additional risks in carrying out their duties. Without timely and accurate information about incidents, officers may be unprepared or ill-equipped to respond appropriately. This lack of situational awareness can put their lives in danger and hinder their ability to provide effective assistance to those in need.
5. **Overburdening alternative channels:** In the absence of a functioning 911 system, community members may resort to using alternative channels to contact the police, such as non-emergency

phone lines or social media platforms. This can lead to an overwhelming volume of calls and messages, straining the resources and capabilities of the police department. As a result, response times may be further delayed, exacerbating the risks faced by both the community and the police personnel.

In summary, a malfunctioning 911 system undermines public safety by delaying emergency response, impeding information flow, and compromising the ability of police personnel to fulfill their duties effectively. Restoring and maintaining a reliable 911 system is crucial for the safety and well-being of both the community and law enforcement.

Sincerely,

Todd R. Warren
