 Corrective Action Plan of Audit Findings 2022

Status of Grants					
1	Presently the Grant Fund, General Capital Fund and Utility Capital Fund include a large number of old grant receivables and reserves. There is also a reserve in the Grant Fund for an amount of \$580,543 which represents cancellations from prior years.	A review should be made of all grants to establish their availability and collectability. Funds should be expended, related receivables collected, or grants should be cancelled.	Departments charging expenditures against grants will be required to provide the appropriate documentation to the grants coordinator, Wendy Sykes and to the finance department for reimbursement billing. The Finance department will perform an analysis of old grant receivables and will attempt to collect where possible and will cancel where necessary. Funding will be placed in the CY2022 budget for a new hire who will assist with Grant outreach and collection.	CFO Clements and Grants Coordinator Wendt Sykes	October 17, 2023
Interfunds					
2	The City had more than \$16.2 million of interfund balances throughout the City's financial statements.	The City should perform timely reconciliations of its bank and general ledger accounts in order to minimize the amount of interfunds at the end of the year.	Reconciliations are being done on a monthly basis, and money has been liquidated from various interfunds to resolve this problem.	CFO Clements	October 17, 2023
Pilot Revenue					
3	During our audit of the City's PILOT (Payment in Lieu of Taxes) program, it was noted that the five percent portion due to the County was not turned over to the County during the year.	All PILOT agreements should be reviewed to ensure that the appropriate amount due to the County is remitted.	PILOT agreements and the developers' audited financial statements will be reviewed on a regular basis to determine the proper amounts to be billed and budgeted. If we choose to pay the 5% to the County, it should not be a budgeted line item. It should be netted against the revenue with the net amount going to the City and anticipated as a revenue in the following year's budget.	BA Hartwyk & CFO Clements	October 17, 2023
UCC Office					
4	During the testing of Construction Code activity, the following was noted: Total Revenues per the UCC Department permit fee log did not agree to the UCC report by \$124,802.00	The activity of the UCC Office should be reviewed to ensure that amounts reported as revenue on the permit fee log agrees to the UCC report.	The Finance Department will work closely with the Planning/UCC department to ensure both of our ledgers are in agreement for amounts collected.	BA Hartwyk, CFO Clements, Director Best	October 17, 2023

Accounts Receivable -Police Outside Services			
5	The City had a \$394,000 receivable balance at year-end related to police outside services. Upon investigation, \$86,693.31 of the prior year-end balance of \$480,693.31 was cancelled, but none was collected in cash.	The City should investigate this balance and assess the collectability of amounts receivable. Collection efforts should be made for amounts deemed collectable.	The City has made collections which resulted in the reduction of the prior-year balance and will attempt to collect on what balances are due and for those that cannot be collected we will write them off.
