Re: City of Orange Township
Recommendation for On-Street Handicapped Parking at 61 William Street
Block 1702, Lot 33
RVE File No. 0717G009

Dear Mr. Mayes:

At the request of the City, our office conducted a site investigation of the above-referenced location to determine the feasibility of installing an on-street handicapped parking stall. Our office conducted the investigation per *City Code Chapter 200-18.1 Handicapped Parking Spaces*. Below please find a summary of the City Code requirements and our findings:

City Code Requirement	Findings
Is parking prohibited in area?	Yes
Will the parking space interfere with normal traffic flow?	Yes
Will the number and/or nature of commercial establishments in the area make the parking stall burdensome or impracticable?	No
Will the existence of other restricted parking stall in the vicinity of the proposed parking stall create an unreasonable burden on residents?	No
Is there an existing handicapped parking stall within 300 feet of the proposed parking stall?	No

Our office also noted the following conditions during its site investigation:

- Property appears to be a single-family residential dwelling.
- There is no driveway associated with the property.
- There is no parking allowed on the resident side of the street.

Based on our investigation, the above-referenced property does not meet the requirements of *City Code Chapter 200-18.1 Handicapped Parking Spaces*.

Should the City approve the application, our office recommends that the stall be constructed on the south curb line of William Street across from the 63 William Street property. Our office can provide technical guidance upon request.

If you have any questions, please feel free to call Mr. Derek Dorrah at (551) 430-1019.

Sincerely,
REMINGTON & VERNICK ENGINEERS
